

Training Web Sites

Train your employees on new systems, procedures, or maintain an overall organizational training program. Let students learn independently, at their own pace, while administrators track their progress.

Opportunities and Solutions in Financial Services

Main Menu

There are four main modules in this training. After you have completed each module, please complete the accompanying Self-Check Exercises to test your retention of the information covered.

When you have finished all four modules, please take the Final Exam.

- Started, not completed **Overview of Financial Services**
- Started, not completed **Retail Banking**
- Started, not completed **Wholesale Banking**
- Started, not completed **Capital Markets**
- Started, not completed **Final Exam**

Sample Main Menu

Features of Training Web Sites

- Separate modules to cover different topics.
- Status notes for each module.
- Self-Check quizzes at the end of each section. (See sample below)
- Final Exam at completion of training.
- A certificate can be printed after passing the Final Exam.
- Management can track each employee's progress.
- Administrator customizable text for different regions.

A great training web site:

- ◆ Is easy for students and administrators to learn and use.
- ◆ Can be customized and modified by Administrators to update material or to make the material more relevant to a specific region.
- ◆ Includes a variety of training methods such as written words, pictures, animations, voice recordings and video clips.
- ◆ Automates testing and certification.
- ◆ Is visually well designed and interesting to look at.
- ◆ Helps students track their progress .
- ◆ Has well planned training material that clearly covers the course requirements.
